Before you can consider this lesson complete, you need to be able to list off the symbol groups as: “one, two, three, four, five, six, seven, eight, nine, thumb;” “contact, finger, wall, diagonal, floor, curve wall, hit wall, hit floor.”

Almost the last help when remembering the second set of base symbols — curve outside, hit inside.

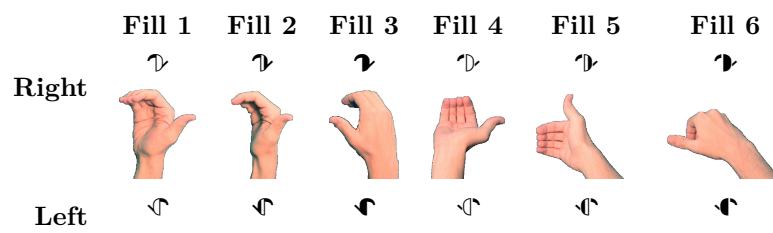

So we continued with the wall followed by floor, now we did two hits together because curve outside and hit inside.

It should not surprise you to know that curve floor is next. The last symbol just has to be remembered, but that’s for the next lesson.
