Symbol Groups Timing and Head

The twenty-first Symbol Group we informally call timing, though it's official name is "Dynamics & Timing".

Base Symbol	Example	Base Symbol	Example
Fast	<	Slow	⤿
Tense	~	Relaxed	≈
Same Time	∧	Same Time Alternating	↗
Every Other Time	∞	Gradual	○

The twenty-second Symbol Group we informally call head, though it's official name is also "Head".

Base Symbol	Example	Base Symbol	Example
Head	○	Head Rims	⊙
Head Movement Straight Wall Plane	⤴	Head Movement Tilts Wall Plane	⤵
Head Movement Straight Floor Plane	⤶	Head Movement Curves Wall Plane	⤷
Head Movement Curves Floor Plane	⤸	Head Movement Circles	⤹
Face Direction Positions, Nose Forward Tilting	⦶	Face Direction Positions, Nose Up or Down	⦷
Face Direction Positions, Nose Up or Down Tilting	⦸		

Before you can consider this lesson complete, you need to be able to list off the symbol groups as: "one, two, three, four, five, six, seven, eight, nine, thumb;" "contact, finger, wall, diagonal, floor, curve wall, hit wall, hit floor, curve floor, circle;" "timing, head."

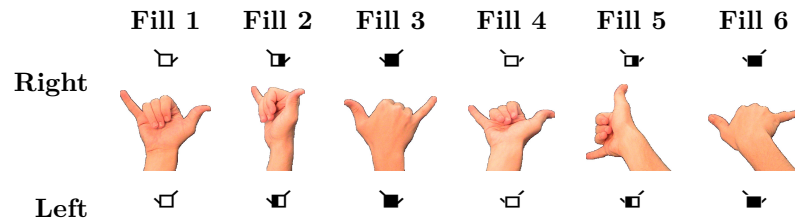

Don't forget that we consider the groups as being in three sets of ten so there is also a semicolon after circle.

Category three is dynamics, and the solitary base symbol gets is timing. Category four is face and it gets half of the third group *generally* moving from top to bottom.
