The twentieth Symbol Group we informally call circle, though it's official name is “Circles”.

Base Symbol	Example	Base Symbol	Example

Arm Circle Wall Small Double		Arm Circle Wall Medium Double	
Arm Circle Hits Wall Small Single		Arm Circle Hits Wall Medium Single

Before you can consider this lesson complete, you need to be able to list off the symbol groups as: “one, two, three, four, five, six, seven, eight, nine, thumb;” “contact, finger, wall, diagonal, floor, curve wall, hit wall, hit floor, curve floor, circle.”

Final help for the second set of base symbols. All of our informal names are in the singular even if it might make more sense to have plural — so we use circle instead of circles.
