Symbol Groups Detail and Punctuation

The twenty-ninth Symbol Group we informally call detail though it's official name is "Detailed Location". In conversational ASL, you should never need these but if you want to add a note to yourself about how to get the correct accent these are the symbols for you.

Base Symbol	Example	Base Symbol	Example
Location Space Wall Plane		Location Space Floor Plane	
Location Height		Location Width	
Location Depth		Location Head Neck	
Location Torso		Location Limbs Digits	

The thirtieth, and final, Symbol Group we informally call punctuation, and it's official name is also "Punctuation".

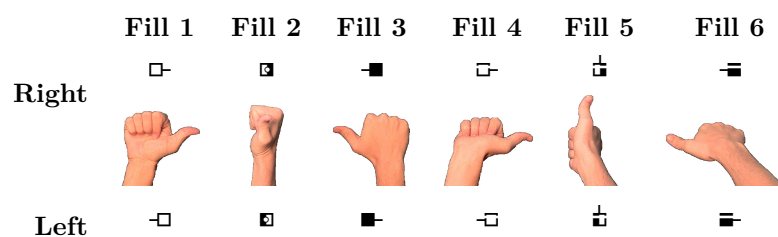

Base Symbol	Example	Base Symbol	Example
Comma		Period	
Semicolon		Colon	
Parentheses			

Before you can consider this lesson complete, you need to be able to list off the symbol groups as: "one, two, three, four, five, six, seven, eight, nine, thumb;" "contact, finger, wall, diagonal, floor, curve wall, hit wall, hit floor, curve floor, circle;" "timing, head, eye, middle, lip, mouth, trunk, limb, detail, punctuation."
